

added in flood insurance and a couple of other programs that we have thought about.

But the last part of this thought experiment, you are telling me it is absolutely ethical that saying, on one hand, I want to tax these folks more. But, oh, by the way, here is your subsidy to buy your electric car. Here is your subsidy to buy the solar panels. Here is your subsidy to have a multimillion-dollar house in a flood zone. Here is your subsidy.

This is irrational economics. It is irrational policy. And the only reason a political party would continue to support it is they understand it is the shiny objects that get used for additional political support. That is a cynical, dark thing for our friends on the left to continue to do.

So that is my thought experiment for this evening. We are going to try to add some more detail on these numbers over the coming weeks.

Mr. Speaker, I yield back the balance of my time.
